## Project Structure

Create a Project folder which contains files as shown below

- Dataset folder contains the training and testing images for training our model.
- We are building a Flask Application which needs HTML pages stored in the templates folder and a python script app.py for server side scripting
- we need the model which is saved and the saved model in this content is gesture.h5
- The static folder will contain js and css files.
- Whenever we upload a image to predict, that images is saved in uploads folder.
